A huge thank you to all STOPPIT-3 sites, we know there is a lot of work behind the scenes and that all our sites are working hard. An extra big thank you to all of the recruiting teams!

An especially big shout out to two sites who had their **first recruit** in April:

STOPPIT-3 NEWS

ALPS RESEARCH FINDINGS PUBLISHED

The ALPS Follow-Up Study “Neurodevelopmental Outcomes After Late Preterm Antenatal Corticosteroids” is now published and can be read online at

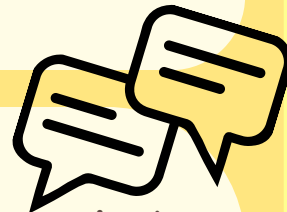

<https://jamanetwork.com/journals/jama/fullarticle/2818051>

The ALPS Follow-Up Study **found no significant difference** in neurodevelopmental outcomes between ACS-exposed children and the control group.

While there are differences between the STOPPIT-3 and ALPS participant recruitment criteria, these findings are reassuring, and hopefully will help in discussing the potential side effects from ACS with potential participants. We will be speaking about these findings on Friday 03/05/2024 on our Booster Training Teams call at 13:00, which will also be recorded - do contact the team for more details.

UPCOMING TEAMS CALLS

As well as our regular drop-in chats via Teams, our Booster Training Session is now available to watch online.

The **drop-in chats** are guided by the needs of the STOPPIT-3 research teams and offer a **good opportunity** to discuss any issues you may be having or ask for advice or insights from other sites. The **monthly PI Chats** are **aimed at supporting PIs** but are open to **all STOPPIT-3 site team members**.

- **Booster Training Session 2 - now available to watch here:**
