

STOPPIT **3** & STOPPIT-**M** NEWSLETTER

December 2024

WELCOME DECEMBER!

Wishing everyone Happy Holidays and a Warm Winter!

We hope you have heard about our **very big (and sad) news**, that **both STOPPIT-3 and STOPPIT-M recruitment has been halted, as from 25th November 2024**. Naturally we are all very disappointed about this but our Funder, the NIHR, has now confirmed the trial is not feasible and therefore our main question for the trial cannot be answered. However, we will still be working with all the teams who have recruited participants as we hope to complete the PARCA-R questionnaire follow-ups over the next two years. We will be in touch with everyone soon about what's going to happen in the new year.

It's been a privilege and a pleasure to work with all our fantastic teams. Please don't worry that this is the end though, we won't be disappearing quite yet...

RECRUITMENT

November this year has equalled our best month ever – **9** in total so far (who knows how many we would have had by 30th November?) bringing our total number of recruits to an overall

116!

Edinburgh randomised our very first participant back in September 2022 and has completed the circle by randomising the final (116th) participant on 25th November 2024! (There was an error in our last newsletter (November) – Pinderfields also recruited someone so our October total recruits was 8 not 7.)

December 2024

STOPPIT-3 NEWS

SCREENING LOG

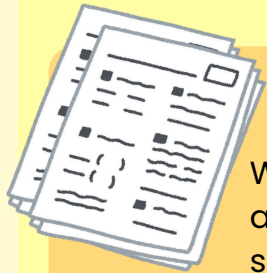

Now that we have closed to recruitment, we'd like to confirm how to complete the screening log.

If you have **approached potential participants who have planned birth dates coming up**, please **record** on the **screening log** as 'Other' with a comment 'Trial closed early'.

You can **also add**:

- **Anyone who has received the full PIL**
- **Anyone 32 weeks or more who is eligible**

The randomisation facility has been removed from the database.

PARCA-R QUESTIONNAIRES

We have stopped recruitment but STOPPIT-3 **is not closing down yet**. There are still some positive outcomes we can gain from the work we have done so far. We still await decisions from the funder but we hope to complete the 2 year follow up for each participant (PARCA-R questionnaire) and carry out some qualitative evaluation on the trial. These decisions, and any subsequent actions required, will filter down to the sites and R&D departments when we get it from the NIHR.

Until then, we are **continuing to send out the questionnaires** for **any 2-year follow-ups** that are **currently due**.

We will work our way through the list and **will be in touch when the 2nd birthday is due**.

DROP-IN CHAT

Our next drop-in chat is on **Thursday, 5th December at 12.30pm**, via **Teams** (rescheduled from 28th November due to the STOPPIT-3 trial team Christmas lunch taking place on that date)

STOPPIT-3 RECRUITMENT

Recruiting Team	Total Recruits	November Recruits
